The encroachments in the interior Forests and where the tree growth is rich are to be removed. To the extent possible such of these persons may be accommodated in the area presently under encroachment along the margin of the forests, Forest land cleared earlier for purposes of grant but thereafter withheld from being made available to the Revenue Department may also be availed for the purpose.

The survey of the areas under encroachment has been taken up and after completion of the survey further action will be taken for regularisation of encroachments.
